

PEPFAR

U.S. President's Emergency Plan for AIDS Relief

Partnering to Achieve Epidemic Control in India

SAVING LIVES

In 2015, PEPFAR supported the following achievements in India:

Life-saving antiretroviral treatment for 19,177 people

Testing and counseling for 2,140 people

HIV prevention interventions for 484,582 people from key and priority populations

The United States is proud to support India's leadership in the global HIV/AIDS response. PEPFAR provides technical assistance in India to maximize the quality, coverage, and impact of the national HIV/AIDS response. Working together with the Government of India, the private sector, civil society, and other development partners, PEPFAR is supporting efforts to strengthen national capacity to implement and evaluate HIV prevention, care, and treatment programs at all levels. Specific priorities include

- Improving access to the continuum of quality care for key and vulnerable populations, orphans and vulnerable children, and people living with HIV/AIDS
- Strengthening the national health system to improve HIV-program outcomes through investments in laboratory systems strengthening, human resource capacity building, and health information systems
- Supporting the development of national policies and guidelines to improve program quality and sustainability

HIV/AIDS in India

| | |
|--|-----|
| Number of people living with HIV (all ages), 2014 ² | N/A |
| Deaths due to AIDS (all ages), 2014 ² | N/A |
| Number of orphans due to AIDS (0-17), 2014 ² | N/A |
| Estimated antiretroviral treatment coverage (adults ages 15+), 2014 ³ | N/A |
| Estimated percentage of pregnant women living with HIV who receive antiretroviral medications for PMTCT, 2014 ³ | N/A |
