

PEPFAR

U.S. President's Emergency Plan for AIDS Relief

PAPUA NEW GUINEA

Partnering to Achieve HIV/AIDS Epidemic Control

2018

U.S. Embassy Papua New Guinea

Total PEPFAR Investment (FY 2009-2017): \$44,061,000

The U.S. government, through PEPFAR, is proud to partner with the people and Government of Papua New Guinea in accelerating their progress toward achieving HIV/AIDS epidemic control. In Fiscal Year 2018, the partnership will include the following specific priorities:

- Focusing on key policy implementation to catalyze and bolster national and provincial HIV, key populations, and gender-based violence work
- Reducing the costs of providing HIV services and increasing the sustainability, quality, and reach of proven interventions
- Piloting innovations for future scale-up and efficiencies and working with the National Department of Health to adopt and roll out these new policies for HIV prevention, care, and treatment
- Continuing to support the government's work to roll out Test and Start and viral load testing in the National Capital District and nationwide
- Developing key policies to address gender-based violence and sustainable delivery models for key populations
- Bolstering surveillance capacity and improved data collection to maximize the impact of current and future behavioral survey results

PEPFAR Results in Papua New Guinea¹ (through September 2017)

 **Antiretroviral treatment for 6,807 people**

 **HIV testing services for 14,703 people**
